GAINESVILLE, FLORIDA, WEDNESDAY, SEPTEMBER 8, 1909

TEN CENTS A WEEK

FINANCING THE GREAT AMERICAN COTTON CROP

Proper Marketing of Staple Most Important Move Capable of Being Made by Southern People.

(By Henry S. Reed, Editor and Manager of The Cotton Journal, Atlanta, Ga.)

To finance the American cotton crop in the interest of the country producing the crop—in the interest of the men who grow the lint—is without doubt the most important move capable of being made by Southern people. I am not disposed to make any display of sectional interest, but in handling the subject under consideration, most emphatically urge Southern men to interest themselves in the labor of financing cotton, because this money product of the South should be considered by men who know and sympathize with the man who tills, and know and appreciate the important part cotton plays in the various industries of Southern States. To be financed and controlled by men who care only for the individual profit to be derived, would without serious controversy result in the further enthrallment of the toiling masses, hence it is quite impossible to look with kindly eyes upon moves looking toward the control of the crop by men living beyond our borders, and engaged in the more or less doubtful occupation of speculation.

Because the industry is one of grand proportions does not signify simple rules of business can not be applied with the same degree of certainty in their accurate workings, as have characterized their workings in huge railroad corporations, steel companies and other industrial enterprises. Indeed, when once the plan is hit 'twill be found simple and will follow the course of good business procedure. There is no mysterious verbiage in good business transactions, and the complicated, ambiguous, circuitous route suggested by some from start to finish will be made to read smooth and clear to any mind capable of understanding business economics. The question how to market the crop, for of course that

means to finance it, is attracting better attention today than at any other time in the history of the industry; men of brain and power are conning in their mind the best possible means for putting this industry on a footing enabling it to compete with the interests buying each year our splendid product. For it must be understood the buying interests are completely organized, and for that reason the South is very much at the mercy of those interests in its present unorganized condition.

No reference is here aimed at political, educational or agricultural organizations. They in themselves are good and useful, but do not in the least have anything to do with the greater problem of financing and successfully marketing this great staple.

The Magnitude of the Crop.

The American cotton crop, valued at around \$800,000,000 annually, a sum equal to the combined output of all the gold mines in the world for two years, must be financed in such a practical manner as to permit the marketing of the crop from month to month as demands from spinners present themselves, thus preventing the congesting of an annual supply upon an overstocked market during the last months of the year.

To accomplish this there must be certain prime and principal cornerstones laid deep and strong and cemented by integrity and accumen.

First: We must establish ample warehousing facilities at principal ports and in the various districts, bonded by the Government and managed on business principles, with each bale warehoused, sampled and marked to correspond with bale, and said sample exhibited in the main or parent warehouse, enabling a purchaser

for foreign or domestic mills to buy spot cotton by sample and without penetrating the cotton belt.

Second: We must establish a great cotton bank and trust company, capitalized and managed in the sole interests of the cotton crop, the details to be worked out by our best and most experienced bankers. The stock in such an institution would be considered gilt-edge by the cotton world in all countries.

Third: We must create a money center in the South and thus bring from foreign lands the gold obtained in exchange for lint cotton to the South direct, enabling its distribution throughout the cotton-growing States. This is all within the pale of possibility, only needing the co-operation of our Southern bankers to make Dixie the richest country on earth.

To do all these things may seem stupendous to those who give such matters close thought, and, again, to those who have looked upon this question as a part of politics, markets or organizations, cotton exchanges, et al. it may seem too simple to be effective. To the writer, who has given corporate matters attention, the plan seems capable of being worked out without infringing upon good business methods; indeed, we can see no reason for hesitating at this any more than refusing to recognize the success of great railroad corporations, steel companies and other industrial enterprises.

The great object in view is to finance, to market, the cotton crop; not to hold cotton for abnormal prices or for the benefit of any combination, but to finance it for the sole purpose of permitting the crop to find its way from the cotton field to the spindle in a natural way, unhampered by the acts or misfortunes of anyone.

The Results.

The farmer not wishing to sell in the fall will be enabled to warehouse his crop, and will be furnished with certificates showing grade, kind, etc., or if he sells to his banker or merchant these cotton certificates can be held by the banker or merchant, they stepping into line in the place vacated by the distressed producer. These cotton certificates, each backed and secured by a bale of cotton of known weight and grade, the whole guaranteed by a bond of ample magnitude and strength, becomes at once a circulating medium, a species of speculation, a means of saving, which the man of business anywhere in the world must recognize. No government bond is safer, if the cotton burns, the insurance companies pay for it; if it does not burn the world needs it and must have it at a substantial price above the cost of production.

There Must Be a Start.

Horace Greeley once said in the memorial debates on the resumption of specie payment, "The way to resume is to resume," and in like spirit the only way to accomplish the grand results possible by financing the cotton crop by the South and for the South, is to finance it. "Faint heart never won fair lady," and the halting, doubting Thomases never won a great victory in any walk of human endeavor. Therefore, if the thing is to be done let's start it and go on until the grandest accomplishment in all the economies in the annals of history has an abiding place in the cotton-growing States of America.

The First Step.

Such an undertaking as contemplated needs a promotion fund of magnitude too great for any one man or set of men to contribute, hence it should be secured from the people in all sections of the cotton belt, since all sections are to be benefited.

The people in each State in the belt should subscribe their quota to the promotion fund. These subscriptions should not be called for until the whole amount has been subscribed. They should then be paid into

(Continued on Page Two.)

ALDERMAN GOODWIN'S MOTION TO STOP WORK

Only Trash Wagons Will be Operated on Streets From Now Until the October Meeting.

The City Council convened in regular monthly session at 8 o'clock Monday evening, having present President Burnett, pro tem, Aldermen Colclough, Goodwin, Graves and Pound.

Minutes were read and approved, upon motion of Alderman Graves. The mayor read the charges which were preferred against Marshal Arnow, which were upon motion of Alderman Goodwin received and filed.

Following were the reports of city officers: Collector, \$129.50 water collections, and \$16.38 for licenses; Marshal reported \$128.50 for month of August.

The following bills were ordered paid:

Contingent Fund—Gainesville Hardware Co., 50 cents; T. B. Ellis, \$1.77; Gainesville Furniture Co., \$5.50; B. T. Arnow, \$12.50; P. G. Ramsey, \$2.05; Mrs. H. H. McCreary, for sexton cemetery, \$35.

Light Fund—Gainesville Gas & Electric Power Co., \$238.56.

Officers' Fund—J. M. Dell, \$40; B. T. Arnow, \$60; Harry Owens, \$50; T. L. Boulware, \$25; A. W. Taylor, \$64.25; J. B. Dell, Jr., \$23.08; C. M. Dell, \$100; Mrs. Lois Tucker, \$46.64; Phifer Bros., assignee John Jones, \$22.14; Gainesville Hardware Co., \$12.33.

Fire Protection Fund—L. D. Jernigan, \$40; J. E. Moyers, \$55; L. A. Jernigan & Son, \$4; Gainesville Gas & Electric Power Co., \$7.49; J. A. Naftzger, \$4; Benson & Son, \$7.50; Saunders & Earle, \$40.90; Gainesville Hardware Co., \$2.15.

Waterworks Expense Fund—T. B. Ellis, \$2.50.

The following bills were read, when Alderman Colclough moved to waive rules and pay same—motion carried:

Waterworks Expense Fund—Gracy Lumber Co., \$75; Crandall Packing Co., \$3.60; Ned Williams, \$5; B. F. Miller, \$182.50; Gainesville Hardware Co., \$93.65; E. A. Strunk, cashier, \$51.50.

Street Fund—C. M. Dell, assignee (five items), \$242; Mose Malphurs, \$6; Sam Cook, \$5.

Alderman Goodwin moved to waive the rules and pay bill of T. B. Ellis for moving, \$2.50. Motion lost.

On roll to pay the bill of T. L. Boulware, President Burnett and Alderman Goodwin voted "no." Aldermen Graves, Colclough and Pound voted "aye." Motion carried.

Alderman Pound moved that the clerk notify the Seaboard Railroad Company that their first action in refusing to enter into a three-year contract to furnish them water was final. Motion carried.

Alderman Graves moved that the Street Committee get up printed forms of daily and monthly reports of street work. Motion carried.

Alderman Goodwin moved that street work of every description be discontinued until the first meeting in October, except the two trash wagons. Motion carried.

Alderman Goodwin moved that the

City Attorney go to Tallahassee to consult the authorities as to the rights of the city and A. C. L. railway on West Main street, as granted in franchise to said railroad, city paying actual expense. Motion carried.

Alderman Goodwin moved that Council appropriate \$20 out of the Contingent Fund to aid the family of the man shot by Marshal Arnow. Roll was called, and President Burnett and Alderman Pound voted "no." Aldermen Goodwin, Colclough and Graves voted "aye." Motion carried.

Alderman Pound moved that the Clerk send a copy of the Mayor's charges to Mr. Arnow, notifying him that the Council would meet to investigate same at 8 p. m., September 7th. Motion carried.

Alderman Graves moved to adjourn until 8 p. m., September 7th, which motion was carried, and Council adjourned.

During the proceedings of the Council, when the bill from the Gainesville Gas & Electric Power Company for street lighting was read, Alderman Goodwin moved that said bill be tabled, or held up for payment, until the said company complied with an order to place an arc light on East Main street, in front of the White House and First Methodist church, which instruction was given some time ago. The light was installed, but for some reason was removed, and has never been replaced.

Alderman Pound stated for the information of the Council that the management of the lighting company declared he would keep the city in darkness until the bill was paid, hence Alderman Goodwin's motion failed of a second.

Arnow Case Continued.

The Council, which adjourned Monday night until Tuesday evening for the purpose of taking up and disposing of the charges preferred against Former Marshal Benj. T. Arnow by Mayor Davis, met at the appointed hour, President Pro Tem Burnett and Aldermen Colclough, Graves, Goodwin and Pound present, but no action was taken in the matter for which the meeting was called.

Upon the convening of the Council Alderman Goodwin moved that the charges against Mr. Arnow be taken up and disposed of, as the defendant was on hand to answer same. Alderman Goodwin's motion did not receive a second, but was followed by a motion by Alderman Pound, seconded by Alderman Graves, to the effect that the matter be deferred until the first regular meeting in October, which was carried.

Marshal Arnow was present, and desired that the matter be settled definitely at this meeting. The only charges preferred against the former marshal were that of leaving his official duties without permission from the proper authorities.

Bright Prospects for Florida State College for Women

TALLAHASSEE, Fla., Sept. 7.—The prospects for a large attendance at the Florida State College for Women are very promising. More reservations have already been made than in previous years.

The new laundry building is rapidly nearing completion. As soon as completed the machinery will be installed. This laundry will be a great convenience to the students.

Miss Martha M. Cline, Director of the School of Music, and Miss Sarah Y. Cline, instructor in voice culture, are spending the summer in Holmes, New York. Miss Sarah is taking lessons under the famous George Town

ing. Before coming to Tallahassee they will spend a week or ten days in Washington, D. C.

Prof. L. S. Barber, B. S., Assistant Professor of Chemistry and Biology in the Normal School, is in his laboratory daily getting ready for the year's work. Prof. Barber, though a new member of the faculty, is not a stranger here, he was the principal of the Leon High School for the last two years.

Miss Shirley Long, A. M., instructor in Latin and Mathematics, will arrive soon for the opening of the term. She is spending the summer at Chicago University, doing postgraduate work.

Wife's Parents Victims of Husband's Terrible Deed

OCALA, Fla., Sept. 7.—John Bevil, a prominent young man and a son of Thomas Bevil, county commissioner of this county, shot and killed his wife's parents, Mr. and Mrs. Harter, and then injured his wife at Sumter yesterday morning. Bevil drove

to the Harter home and without warning fired on the couple who were in the yard. He was later surrounded and helped in jail. The tragedy was caused by Harter's refusal to allow his daughter who had left Bevil to return to his home.

Peary Says the Stars and Stripes Nailed to North Pole

NEW YORK, Sept. 7.—Lieut. Robert E. Peary has reached the North Pole and is now returning to civilization. The first report was received yesterday by the Associated Press.

A startling and historic message reached from the coast of Labrador

to New York by Lieutenant Peary that the stars and stripes had been nailed to the North Pole, and thence to the corner of the globe, at the moment when Dr. Cook is being acclaimed by the crowned heads of

(Continued on Page Five.)

DELINQUENT PROPERTY IS IN A MUDDLE

SHERIFF RAMSEY REFUSED TO EXECUTE SALE MONDAY.

State Attorney Rivers Held Deal Legal, But Sheriff Differs With Him on Point.

The modern version of what might be termed "A Comedy of Errors" existed at the court house Monday, when certain property was to have been sold to satisfy a couple of executions against M. B. Davis, formerly a merchant of Hague, who was adjudged a bankrupt some time ago. The question arose between Sheriff Ramsey and Prosecuting Attorney Rivers of the legality of this sale, as a homestead exemption which bore a tinge of illegality was hanging over the transaction.

Several months ago Mr. Davis made an assignment and the stock of goods, consisting of general merchandise, was sold to a party in this city. This transaction was all right as far as it went, but the amount realized from the transaction did not begin to equal the indebtedness of the bankrupt, hence certain real property was advertised to be sold on the regular rule day in order to satisfy other judgments against the defendant.

But the trouble came at a later date, which created the diversity of opinion in law between the prosecuting attorney and the sheriff. Mr. Davis, who is a married man, sued out the writ of homestead exemption, which entitled him to the possession of property to the value of \$1,000. The description, however, showed that the property embraced in the homestead exemption comprised three separate and distinct parcels, being one parcel containing the store building, another containing Mr. Davis' residence, both situated at Hague, and still another parcel near Gracy's mill.

Sheriff Ramsey contends that under the law governing the case he had no right to sell the property, while Attorney Rivers differed with him. The result was that the property was not sold, as the sheriff refused to put it on the block, and the State's attorney failed to take the legal steps to compel him to do so.

Thus the matter stands, and the outcome will be watched with considerable interest.

The law, as looked upon from some sides, provides that property involved and included in a homestead exemption must be embraced in one parcel, or tract.

SAM WILLIAMS IN TROUBLE.

Attempted to Beat Railroad Train and Got Two Months.

Deputy Sheriff E. Marconny of Alachua was in the city Monday. He had in custody one Sam Williams, colored, who was arraigned before Justice H. C. Sealey on a charge of beating his way on a railroad train, and was fined \$10 and costs or sixty days at hard labor in the mines.

Under the law Williams must be held in the county jail for five days, at the expiration of which time he will be taken to the camps if the fine is not paid.

FINANCING THE GREAT AMERICAN COTTON CROP

(Continued from Page One.)

the hands of a trustee in each State. These trustees from the various States would then meet and create a trust, banking and warehouse corporation, and open books for the sale of stock in the biggest proposition ever presented by the South, and these men who succeed in establishing a system for financing the world's greatest money crop will write their names so firmly in the Hall of Fame that time will not be long enough to cause an effacement.

An Appreciation.

Appreciating the public spirit and sound business judgment of those aiding in the early stages of this great need by subscribing to the promotion or expense fund, it is suggested that all such public-spirited men be reimbursed from the stock of the main or principal company at 50 cents on the dollar, stock selling at par, to the extent of the sum subscribed, and that their names be engraved in such a way and manner as to become a part of the undying history of the world's greatest achievement.

The successfully carried out plans for financing our crop is of interest to every person in the land because

The People Who Wear Cotton Pay the Bill.

It is most interesting and will ultimately be most useful, to obtain the clearly stated views of thinkers along this line, because the time is not far distant when someone or some party of business men will hit upon a plan for financing, hence for marketing the crop. Not with the view of using the product as a great monopoly, but as a staple of rare value demand by the people of the world after it has gone through the necessary process of manufacturing. The world needs it, the spinner is an agency acting in an important capacity between the producer and the wearer of cotton, and must of course be paid a profit for the labor he performs.

It is absurd to reason that the producer must be ground down by growing cotton for a price below profit that the world elsewhere may buy the manufactured product at a price pleasing and economical. Nor is it imperative the producer should live in poverty all his days that the spinner may earn huge dividends for his stockholders. The man and woman the world over pays the bill, and if they cannot, which seems ridiculous when

one takes into consideration the prosperity of the grain grower, the livestock producer, the worker in the mine and forest and those engaged in commerce, manufacturing and banking, then 'tis best to study the profits made by spinners as compared with profits made by growers, and see if something cannot be done for the real benefit of the Southern planter.

A Project of Great Magnitude.

The project is of such a magnitude that men of courage in business and finance seem to look upon it as something almost beyond and above human agency, yet when the plan is perfected it will seem simple and comprehensive, such as mark the conduct of all other grand enterprises.

When our crop is marketed with system the saving to the South of from \$200,000,000 to \$300,000,000 annually will aid materially in putting all our industries, farming, commercial, manufacturing and banking, on a much more satisfactory basis, hence the South's business man is interested, or will be as soon as he can be made to look at this great question in a business-like manner.

The writer has given this question considerable thought from time to time, and knowing the gigantic undertaking involved has tried to strip it of all ambiguities with the object in view of encouraging men to consider the problem in the light of a purely business undertaking.

The attention of every loyal Southern man, banker, merchant, the professions and planter, should be called to the mighty subject, and some day a convention of business men should be called to consider the way and means for giving to the cotton belt new and greater significance by carrying out the plan as briefly stated in this communication.

A Woman's Age? Forget It.

Man has no right to question woman's age—to even think about it. A woman, bless her, is as old as she makes out or makes up and not a day older. Man is out of his latitude when he begins trying to locate woman's age longitude. It is her privilege to conceal her age in any form or manner she may choose, and it is man's prerogative to assist her as much as possible rather than hinder or question her in any way. Man owes it to himself to see that she is supplied with every means of concealing her age or any new wrinkle which she chooses to keep from the gaze of the overcurious public. Man is not supposed to be young or beautiful. He couldn't be if he wanted to be and wouldn't be if he could. With woman it is different. She wants to be and can be and is, whether she wants to be or not, and it is a whole lot better for her and for her admirer or admirers, as the case may be, that her age be carefully guarded under that charming veil of mystery which should ever be hers by right of possession. Forget that she has an age, brother, and you will be happier, and so will she, but don't, for heaven's sake, forget that she has a birthday.—Boston Herald.

The Fighting Editor.

The fighting editor is no joke in Paris. There, if a paper calls a man a liar or a thief, the man takes it seriously, and, visiting the office, he demands a retraction or a fight. It is the fighting editor who receives him. The fighting editor sits in a Louis Seize study, smoking a cigarette and reading a new novel with a yellow cover. He is faultlessly dressed in deep black—the duelist's color. The ribbon of the Legion of Honor is in his buttonhole. His brilliant eyes and clear skin proclaim his perfect condition. His alert, supple carriage shows his military training. The fighting editor never writes a line, but is responsible personally for every word in the paper every day. On a plain, outspoken sheet like Le Matin, which keeps him pretty busy, his salary is very large—\$40 a week or so. A conservative journal like Le Temps, having little use for a fighting editor, pays the man no more than \$20.—Exchange.

On the Fence.

"That woman won't take either side of the social dispute until she is reasonably sure which one is going to win. She's a cat!"

"Ah, then that accounts for her being on the fence!"—Baltimore American.

Keep your eye on the want ads. There may be something advertised which is of interest to you.

Bilious?

Doctors all agree that an active liver is positively essential to health. Ask your own doctor about Ayer's Pills.

"How are your bowels?" the doctor always asks. He knows how important is the question of constipation. He knows that inactivity of the liver will often produce most disastrous results. We believe Ayer's Pills are the best liver pills you can possibly take. Sold for over 60 years.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is due to an excess of uric acid, an irritating, inflammatory accumulation, which gets into the circulation because of weak kidneys, constipation, indigestion, and other physical irregularities which are usually considered of no importance. Nothing applied externally can ever reach the seat of this trouble; the most such treatment can do is soothe the pains temporarily; while potash and other mineral medicines really add to the acidity of the blood, and this fluid therefore continually grows more acid and vitiated. Then instead of nourishing the different muscles and joints, keeping them in a normally supple and elastic condition, it gradually hardens and stiffens them by drying up the natural oils and fluids. Rheumatism can never be cured until the blood is purified. S. S. S. thoroughly cleanses and renovates the circulation by neutralizing the acids and driving the cause from the system. It strengthens and invigorates the blood so that instead of a sour, weak stream, depositing acid and painful corrosive matter in the muscles, joints and bones, it nourishes the entire body with pure, rich blood and permanently cures Rheumatism. S. S. S. contains no potash, alkali or other harmful mineral, but is made entirely of roots, herbs and barks of great purifying and tonic properties. Book on Rheumatism and any medical advice free to all who write.

INDIAN CLUB WILL PLAY BALL HERE

FRIDAY AND SATURDAY, SEPT. 17
AND 18, WILL ENTERTAIN.

Team is Only One of Its Kind in the
Country Playing National
Game by Night.

The famous Chickasaw Indian Baseball Team, which is now touring the South, is scheduled for three games in this city, Friday and Saturday, the 17th and 18th inst.

This team is the only one of its kind in existence. The aggregation offers a good, clean game that is bound to prove full of interest and enthusiasm, as those comprising the club have made wonderful records as ball players throughout the country.

Another interesting feature of the game is the fact that the team plays at night by the aid of powerful electric lights. The management carries its own lights, which makes the grounds and surroundings as bright as day. This will be an entirely new and novel feature here, as our people have never witnessed a night game of baseball. As proof that the game can be successfully played in the evening, it may be said that in a recent game between the Indians and Perry the score at the end of the ninth inning stood 9 to 6 in favor of the red-faces.

Manager Davis of the Oak Hills has arranged for a series of three games covering two days. On Friday the games will be pulled off afternoon and night, and Saturday in the afternoon, beginning at the usual hour.

These games will prove a novel feature in the baseball world in this section, and no doubt will be well attended.

Further particulars will be given later.

Many people delude themselves by saying "It will wear away," when they notice symptoms of kidney and bladder trouble. This is a mistake. Take Foley's Kidney Remedy, and stop the drain on the vitality. It cures backache, rheumatism, kidney and bladder trouble, and makes every trace of pain, weakness, and urinary trouble disappear. J. W. McCollum & Co.

The Daily Sun, published every morning except Monday, delivered by carrier to the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight page, forty column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, Gainesville, Florida.

Irony of fate. Louis Raynaud, a New Orleans airship inventor, was killed by a train.

If your money is deposited in a Gainesville bank it is all the guarantee of its safety that is needed.

Perhaps the high tariff on lemons will make a larger demand for limes, to the profit of the Florida growers.

Now that Mr. Harriman and Mr. Hill are to take up "joy riding," manufacturers of locomotives are assured of a prosperous future.

Clyde Fitch, the playwright, died Saturday at Chalons-sur-Marne, France, as a result of an operation performed upon him for appendicitis.

With the advent of a 35 per cent duty on foreign-built yachts, there will in all likelihood be a shrinkage in our national pleasure marine.

That there is one "infant" industry which can compete with its big brother is shown by the remarkable growth of the toy trade in the last decade.

The month with the "R" is here, but it is not likely that the oyster will be greatly molested until Jack Frost gives us a touch of cool weather.

No one objects to a speed war between some of the great Western railroads, provided there is no bloodshed and the combatants do nothing but run.

Schools are opening for the fall and winter terms, and the making or marring of the lives of hosts of young people will be determined by the character of the education they receive during the next few months. Rather should we say by the disposition with which they deal with their studies.

Louisville Courier-Journal: "James J. Hill's advice to Canada not to try to get immigrants who will have to be recivilized might well be considered on this side of the line. The United States can accommodate, and needs, a large population, but not an indigestible mass of offscourings from Southern Europe."

The preaching demanded today is not that which spends itself in eloquently portraying conditions in the hereafter, (though that is not to be altogether neglected) but that which aims to make earth as heavenly as possible. It is the reign of moral, business and political righteousness in this life that society needs.

The return of business prosperity is sure to attract multitudes from European lands, for every intelligent, industrious and moral person who comes to improve his lot and contribute to the general good there is a welcome. But there is no welcome for the idle and dishonest. To them the door should be rigidly closed.

MYSTERIOUS MITCHELL CASE.

Some time ago Mr. W. H. Mitchell, says The Ocala Banner, one of the most prominent and best beloved men of Thomasville, Ga., was arrested, charged with an attempt to abduct a Miss Lucile Linton, a beautiful and accomplished young woman of that city.

The evidence disclosed the fact that Mitchell had sent a wire to Miss Linton from a near-by station to which was signed her brother's name. The message stated that he had been hurt in a runaway accident, and wanted her to come to him. He sent a vehicle for her and said that she could trust herself with the driver.

It is alleged that Mitchell was the driver of the vehicle, and had disguised himself as a negress.

In the progress of the drive Miss Linton became suspicious, as she was satisfied that she was not on the right road to the little station.

She finally heard an approaching vehicle, and made an outcry, and the occupant came to her assistance and rescued her. In the confusion which followed the driver escaped.

It was in evidence that Mitchell had a country place near-by, and in a search which followed, the gown and bonnet the disguised negro woman wore were found hanging on a nail near the bottom of a well on the place and it was discovered that the house had been wired with electric warning bells.

While sitting in a chair at his home some time afterwards Mitchell was shot from ambush, and was badly wounded in the foot.

Mitchell claimed that the whole thing was a plot to ruin him. Public sentiment was and is still divided. Mitchell up to that time had been a man of irreproachable character. He was popular in the community. He was married and had grown children. He was a model husband, and in his troubles his wife stood loyally by him.

Mitchell was convicted and after a hard-fought battle in the courts to reverse the jury's decision he lost out, and the pardon board and Governor refused to interfere, and he is compelled to serve his sentence on the chain gang and in stripes.

Here are the comments of The Thomasville Enterprise on the last chapter of this most mysterious case:

Judge Not.

"Circumstantial evidence wove its web around that one of Thomasville's best loved citizens so completely that Wednesday, sick, possibly unto death, he was taken by the sheriff and incarcerated in the Thomasville jail. Attended by his physician and a score of loyal friends and relatives, carried in agony on a pallet, the iron doors of the jail clanged behind him, smirching him with the name of the lawless.

"Circumstantial evidence! Only circumstantial evidence.

"The history of the world is filled with cases where the web of circumstantial evidence has sent to the felon's cell, aye even to the gallows, not one but many whose names were afterwards cleared by the truth as it tardily reached the ears of justice.

"Who shall say that this close-woven web shall not in God's good time be brushed away, and this man, beloved of his friends, and the heart and center of his loyal family and his relatives, with his good name restored again take his place in the affairs of men, which he has always held prior to this hour.

"Shall the example of that devoted wife pass unnoticed? Is there anyone who knows the man's inmost

Sold by all druggists. The
"Take-Hall" Family Pills for constipation.

thoughts, his desires and his weaknesses as he knew them? Would a pure woman, of the best blood in the South, cling to a man in the degradation of lustfully destroying another pure woman? It is impossible! and, to his friends, to those who knew him intimately, the attitude of that wife is refutation enough of the circumstantial evidence of which he is the victim.

"Judge not! Wait until time shall show whether or not the verdict, which carried him to shame, was correct. The truth will be known some day. Until that day, those who know him best will wait impatiently for his vindication."

CURRENT COMMENT.

Memphis Commercial-Appeal: "Little Joe Brown seems to have made good as Governor of Georgia, even if he does wear home-made jeans pants and drinks water out of a gourd."

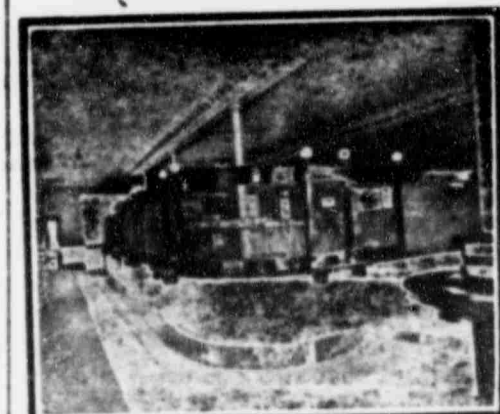

Philadelphia Record (Dem.): "Gov. Johnson of Minnesota confirms the statements that the Republican West is all ablaze with resentment over the fraudulent Payne-Aldrich tariff. In his opinion the inevitable result will be the election of a Democratic House next year. What is likely is that in the West the reactionary members of the House who voted for the bill will be supplanted in most instances by progressive Republicans of the type of the Senators who so vigorously opposed the bill. That will be quite as much to the purpose as the election of Democrats, and more. But here in the East the situation is quite different in making necessary the election of Democrats to the House in place of the reactionary Republican followers of Speaker Cannon."

When Your Joints Are Stiff

and your muscles sore from cold or rheumatism, when you slip or sprain a joint, strain your side or bruise yourself, Painkiller will take out the soreness and fix you right in a jiffy. Always have it with you, and use it freely. The oldest, the cheapest and the best medicine for internal and external aches and pains in man is Perry Davis' Painkiller, and for over seventy years it has been the great standby for emergencies in thousands of families all over the world. Don't go home without a 50c or one of the new size 35c bottles.

NEWS FROM ALL
PARTS OF FLORIDA

The Gamewell fire alarm system has been installed at Quincy. That town has a paid fire department, too.

The new school building at Center Hill is almost completed, and a large attendance is expected for this school this fall.

The Sanford Herald says: "Sanford is through with the Aborigines of Orlando and will now play the more civilized tribe of Chicasaw Indians."

Pensacola now claims to be the banner lumber-shipping city of the Gulf Coast. She has a record of twenty million feet shipped during the first nine days of August.

Before long Leon county will be enjoying her harvesting season, and it is said that her crop of corn, potatoes and cane will be the largest in the history of the county.

Main street, in Bradentown, is now paved with brick, and Manatee avenue, from Main to Court street, will be paved at once, as men are already at work grading the thoroughfare.

The Railroad Commission issued an order a day or so ago to the Atlantic Coast Line railroad for the building of a depot and the establishment of an agency at Taylorville, Lake county.

Jacksonville has a new enterprise in the Wrigley Engraving and Electrotype Company. This plant is complete and up-to-date in all its branches for the manufacture of printing plates.

In Pensacola there is a negro brick-paver who can put down from 28 to 38 thousand brick in one day. The negro is a young fellow, does not weigh over 150 pounds and receives \$2.50 per day.

Capt. J. F. Chase of Veteran City has taken out a patent for an airship. It is to be built on the lighter-than-air principle, and when complete he expects to sell his first ship to the U. S. Government.

Palmetto boasts of having the best high school in that county, accommodating 350 scholars. The town also has a volunteer fire company, with 1,900 feet of two-inch hose. Palmetto is well named the "Meca of Manatee county."

It is reported that the citizens of Mitchellville and the upper Manatee river section are going to celebrate the completion of the six-foot channel, which the Government is now dredging, with a big barbecue and celebration.

Land has been purchased in Sanford on which to erect fifty new cottages for rent. There is no city in the United States, it is said, that needs houses worse than Sanford, and the fifty new ones will not meet the demand.

People who raise hogs should plant mulberry trees, as the fruit makes a good food for both chickens and hogs. Cuttings put out in November or December will make good trees in less than three years, which, it is said, will produce bushels of fruit and afford food for these animals for at least four months.

While tearing down an old brick building on Florida avenue, in Jacksonville, preparatory to erecting a blacksmith shop, a negro workman found an old relic in the shape of a can which is known as "grape shot." The building was a very old one and it is thought from the finding of this relic that it might have been used as a magazine during the Civil War.

PAM-ALA

Is and be any other medicine ever used for CHILLS and FEVER.

Mrs. T. J. M. Evey, of New Orleans, writes: "Feb. 13, 1909, I have sold the rights from Chills and Fever. I have a sample of 'PAM-ALA' as I have sold it with Malakia. After taking it I feel the fever and I agree with you that it is a new woman." "Pam-ala" will make MALAKIA a thing of the past. Contains no Quinine in any form. Sold by druggists. \$1.00.

Woman's Body in Sack
Found at Creek's Bottom

DETROIT, Sept. 1.—All day Sheriff Patton and his deputies have dragged across creek and quizzed residents in the down-river district in hope of finding some clue to the identity of a decapitated, armless and legless body of a woman found in the stream early yesterday morning, but their efforts as yet have been in vain.

The county physicians feel certain that the body had only been in the water a few days and the age of the victim is estimated to be between 20 and 22 years. After examining the body, both physicians gave it as their

opinion that the torso is that of a married woman whose height was about 5 feet 6 inches.

The officers learned yesterday afternoon that a similar sack was found containing a dead dog in Caesar's creek a few days ago. The dog was sewn in the sack and weighted down in the same manner as the woman's body. The officials believe both sack were thrown in the creek by the same man and that the dog was used for experimental purposes.

A coroner's jury has been sworn in and the inquest will be held Friday night.

PEARY SAYS THE STARS AND
STRIPES NAILED TO NORTH POLE

(Continued from Page One.)

Europe and by the world at large a discoverer of the North Pole, add to the remarkable story of achievement that has held the civilized world up to the highest pitch of interest since September 1, when Dr. Cook's claim that he had reached the "top of the world" was first telegraphed from Shetland Islands.

The first dispatch was received by the Associated Press and was as follows: "To Associated Press, New York—Stars and stripes nailed to the North Pole. (Signed) PEARY."

The foregoing startling and laconic message, signed "Peary," is the only available information received up to this time. It was received in New York at 12:30 p. m. yesterday through the Postal Telegraph Company. It was handed in at Indian Harbor, Labrador, and sent from there by wireless telegraph to Cape Ray, Newfoundland, and from Cape Ray to Port aux Basques by Newfoundland government lines, thence to Canscovia by cable and to New York from there over lines of the Commercial company.

COOK BELIEVES PEARY
WILL CORROBORATE HIM.

COPENHAGEN, Sept. 1.—When the report that Commander Peary had discovered the North Pole reached here Dr. Cook said:

"I hope the news is correct. If Peary has reached the pole his descriptions of that region will confirm mine."

NO TRACE OF DR. COOK
WAS FOUND BY PEARY

ST. JOHNS, N. F., Sept. 1.—Commander Robert E. Peary, who announced yesterday that he had discovered the North Pole on April 6th of the present year, found no trace of Dr. Frederick A. Cook of Brooklyn, who reported to the world six days ago that he had made the same discovery in April of the preceding year.

This news reached here last night through Capt. Robert Bartlett of the "Roosevelt." Peary's ship en route to Chateau Bay, Labrador.

Capt. Bartlett telegraphed to relatives here that Commander Peary had found nothing to indicate that Dr. Cook had reached the pole. While Peary does not expressly repudiate Dr. Cook's contention in so many words, his statement may have an important bearing upon determining the extent of Cook's explorations.

The "Roosevelt" was in good condition and the crew all right, wired Capt. Bartlett in addition, and he reported that the schooner Jeanie carrying supplies for the expedition had met them off the coast of Greenland. Coming south the "Roosevelt" passed Etah and Upernivik, Greenland, where Dr. Cook had preceded Peary.

The "Roosevelt" is bound for Chateau Bay, Labrador, with Peary and party on board, where she is due today. Chateau Bay lies northwest of Etah and Herby islands on the northern shore of Baffin Island, and due east of Baffin Island.

Want advertising is a force which you can harness, and with which you can drive your plans and purposes to any desired destination.

The best place to buy your goods is at the store which invites you to come through an ad in The Sun.

The Descending Scale.

"The first letter John ever wrote to me," said a married woman to her friend, "was shortly after we had become acquainted and before there was really anything like an understanding between us. This is the way he signed it:

"Yours, my dear Miss Weston, most sincerely,

JOHN HAMILTON EASTON.

"There, you see, were ten words—enough for a telegram—just to bring a commonplace friendly letter to an end. But after we became engaged his first letter to me was signed in this way:

"Yours, my darling, affectionately,

JOHN.

"That, you will observe, was a reduction of 50 per cent from his conclusion as a mere friend. The first letter he ever wrote to me after we were married was signed:

"Yours,

JOHN."

She stopped for a moment and sighed and then continued:

"We have been married seventeen years now. Yesterday I received a letter from him. Here is the way it was signed:

"J."

Settled the Duel.

Lord March, afterward the Marquis of Queensberry, was not accustomed to view a duel with unbecoming apprehension and usually attended an affair with an air of enjoyment that often was decidedly displeasing and embarrassing to his adversary. But he was served at last with that sauce which the proverb explains is for the gander as well as for the goose. It was when he was challenged to fight an Irish sportsman. Lord March appeared on the ground accompanied by a second, surgeon and other witnesses. His opponent arrived soon afterward with a similar retinue, but added to by a person who staggered under the weight of a polished oak coffin, which he deposited on the ground, end up, with its lid facing Lord March and his party. Lord March became decidedly uncomfortable when he read the inscription plate, engraved with his own name and title and the date and year of death, and peace was patched up.

Scaring the Conscience.

Of all her curious customs London cannot boast of a more singular one than that formerly so strictly adhered to at Holland House, one of the most historic old mansions in the British capital. The last of the Lords Holland shot himself during a fit of despondency. Everything pointed to a clear case of self murder, yet the Holland family could never be dissuaded from the notion that the old man had been murdered by some unknown assassin. Accordingly every night for years it was the custom for one of the family to go to the rear of the house punctually at 11 o'clock and fire a gun for the purpose. It is said, of "scaring the conscience" of the murderer. This curious practice is a relic of mediaeval days in continental Europe, and the case in point is probably the only instance where it has been noticed since the days of the crusades.

Pigeons' Air Sacks.

The air sacks of the pigeon, says Bruno Muller, constitute a system of interspaces the value of which lies in their emptiness—that is, absence of weight and resistance. Flying is possible only to a body of high mechanical efficiency, and we attain this with machines divested of all superfluous material. Just so the original reptiles, which by evolution became birds, were divested of superfluous material, and the body spaces thus obtained were filled with air sacks. The body wall adapting itself to the mechanical requirements, became a hollow cylinder, serving as a support for the organs in movement, the mobility of whose part was secured by the surrounding air sacks. The air cushions in the bodies of birds are another illustration.

Typewriter ribbons for sale at this office. The best on the market. Only twenty-five cents. All colors and for use on all standard machines.

Girls
Who
Work

are especially exposed to the dangers of female organic disorders. Lydia E. Pinkham's Vegetable Compound has enabled thousands of girls to hold their positions.

Read what this girl says:

Paw Paw, Mich.—"I suffered terribly from female ills, including inflammation and congestion, for several years. My doctor said there was no hope for me but an operation. I began taking Lydia E. Pinkham's Vegetable Compound, and I can now say I am well."—Emma Draper.

And this girl:

Indianapolis, Ind.—"I suffered from a severe female weakness and got so bad that I believe I would have died if I had not obtained relief soon. One doctor said nothing would cure me but an operation.

"My aunt advised me to try Lydia E. Pinkham's Vegetable Compound as it had done so much good for her. I did and found it to be the right medicine to cure female troubles and build up the system, and I am now in better health than I ever expected to be."—Bessie V. Piper, 29 S. Addison St., Indianapolis, Ind.

Is it not reasonable to suppose that a medicine that did so much for these girls will do the same for any other girl who is suffering with the same troubles?

These testimonial letters are the genuine and truthful statements from honest people.

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there is lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

FOR SILVER SERVICE.

Board of Trade Takes Action to Secure Funds.

At the suggestion of Mayor Davis, the Gainesville Board of Trade have taken up the matter of raising funds for the purpose of a silver service for the battleship Florida.

Parties desiring to contribute to the fund can notify B. F. Hampton, who is secretary, and the amounts will be credited. Following is the list of contributions up to last night:

| | |
|--------------------|---------|
| B. F. Hampton | \$ 5.00 |
| B. R. Colson | 1.00 |
| Chields Warren | 1.00 |
| H. S. Chubb | 1.00 |
| E. E. Cannon | 1.00 |
| H. B. Arnold | 1.00 |
| W. R. Thomas | 1.00 |
| W. W. Hampton, Jr. | 1.00 |
| E. D. Turner | 1.00 |
| H. P. Robinson | 1.00 |
| A. R. Harper | 1.00 |
| T. W. Shands | 1.00 |
| W. H. Anderson | 1.00 |
| R. G. Zetrouer | 1.00 |
| J. W. Blanding | 1.00 |
| E. G. Baxter | 1.00 |
| Dr. Geo. S. Waldo | 1.00 |
| Phifer Bros. | 1.00 |

Geo. K. Broome 1.00
Dr. H. C. Spencer 1.00
Hon. Frank Clark 1.00
Geo. Glass, High Springs 1.00
Contributions to the above fund will be received from parties residing at any point in Alachua county.

NO. 100 WEST MAIN STREET, S.

GAINESVILLE, FLORIDA.

GAINESVILLE, —THE— University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance.

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit

a few of them in the following enumeration of what

Gainesville Has:

One artist.
No saloons.
One garage.
Four banks.
Four banks.
One laundry.
One laundry.
Water works.
Ten churches.
One gas plant.
Two tin shops.
Three bakeries.
Ten physicians.
Six fruit stores.
Two gunsmiths.
Six restaurants.
One seed store.
Board of Trade.
Six drug stores.
Four shoe shops.
State University.
Masonic Temple.
Twenty lawyers.
Two paint shops.
Four contractors.
One bicycle shop.
Baseball diamond.
Two ice factories.
Six music schools.
One variety store.
One public library.
Two wagon works.
Two planing mills.
Two racket stores.
Two lumber yards.
One marble works.
Three silversmiths.
Three wood yards.
Five dental rooms.
One express office.
Free mail delivery.
Four beef markets.
Eight barber shops.
Two public schools.
Two music houses.
A telephone system.
Two haberdasheries.
Two abstract offices.
Four pressing clubs.
Two machine shops.
Two bottling works.
Six boarding houses.
One Catholic church.
A military company.
Three jewelry stores.
One phosphate office.
One Chinese laundry.
One Christian church.

Two steam laundries.
Two Advent churches.
One daily newspaper.
Two hardware stores.
One female physician.
Fifteen grocery stores.
Five Baptist churches.
Four furniture stores.
One cold storage plant.
One weekly newspaper.
Seven dry goods stores.
One photograph gallery.
Three cold drink stands.
One electric light plant.
Three blacksmith shops.
Three railways systems.
Eight benevolent orders.
Two Episcopal churches.
United States land office.
One chemical laboratory.
Thirteen Sunday schools.
Two veterinary surgeons.
One Presbyterian church.
Two cigar manufactories.
Four real estate agencies.
Volunteer fire department.
Several lumber companies.
Three Methodist churches.
A brass band organization.
Two photograph galleries.
Two moving picture shows.
Florida Winter Chautauqua.
First-class sewerage system.
One semi-weekly newspaper.
Five life insurance agencies.
Two fertilizer manufactories.
Five fire insurance agencies.
Two livery and feed stables.
One crate and basket factory.
One Elks' Club reading room.
Hardwood Manufacturing Plant.
Agricultural Experiment Station.
The Diocesan School of Florida.
Florida Winter Bible Conference.
Five dressmaking establishments.
National Odd Fellows' Sanitarium.
Three undertaking establishments.
Two of the best hotels in the interior.
Two wholesale grain and feed stores.
Two wholesale grocery establishments.
Water "that has made Gainesville famous."
The finest opera house in the State outside of Jacksonville.
A Government building now being erected to cost when completed \$150,000.
Carpenters, masons, plasterers.

painters, printers, machinists and laboring men galore.
More miles of paved streets and granite sidewalks than any other town in the interior of the State.
An \$85,000 court house built of brick and stone—a beautiful structure—and the lawns, flower beds, shrubbery, Confederate monument, etc., surrounding it, make it a most attractive picture.

Give my horse shoer a trial. C. C. Pedrick.

C. R. Jordan left yesterday for Ocala and other points, where he goes on business for a few days.

Mrs. J. C. Evans has returned from New Haven, Conn., where she spent the past two months pleasantly with relatives and friends.

I guarantee satisfaction in horse shoeing, also my painting, and all kinds of repair work. Remember me when in need. C. C. Pedrick.

Timber Cruiser R. E. Huffman of the General United States land office left yesterday for Palatka, where he was summoned on official business.

Relying upon our merits we neither beg for business nor do we force people to stop at our house—but we take the best of care of all voluntary comers. The Brown House.

D. G. Roland of Newberry was among the business visitors to the county capital Monday. He is a member of the firm of Tucker & Roland, who are among the most extensive general merchants in the county.

Dr. Ernest Maye has returned to his home in Montgomery, Ala., after a visit to his daughter, Mrs. W. M. Edwards. Dr. Maye made a number of friends while here who hope to have him in the city again at an early date.

Mr. Mason Tison has returned from his trip to Hot Springs, St. Louis, Louisville and French Lick Springs. He had a great outing and can't determine which is the greater place, Hot Springs or French Lick. Ocala Star.

M. F. McCook, traveling representative for Armour & Co., packers, left yesterday on his regular weekly round. He will visit Palatka, DeLand, Sanford and other points before returning to his home here next Saturday night.

Dr. Abernethy, the great English physician, said, "Watch your kidneys. When they are affected, life is in danger." Foley's Kidney Remedy makes healthy kidneys, corrects urinary irregularities, and tones up the whole system. J. W. McCollum & Co.

Among the prominent Micanopy folks who spent Monday in Gainesville was Dr. J. D. Watkins, cashier of the bank at that place. Dr. Watkins reports business conditions good in Micanopy at present, as many of the farmers are marketing their products.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and much cheaper. Sold by all druggists.

Ed O'Neill and W. S. McDowall have returned from Cedar Key, where they have been recuperating (and incidentally trying to fish) for the past few days. Mrs. McDowall and children are still enjoying the delightful Gulf breezes at that resort, and expect to remain for several days.

Hon. Henry S. Chubb, register of the United States land office, has gone to Winter Park, where he will spend a few days with his family. Friends of Col. Chubb will regret to learn that he has been indisposed for the past few days, but hope that the brief change will prove beneficial to him.

Mrs. I. E. Webster and daughter Miss Ethel, who have been on a visit to the former's daughter, Mrs. C. F. Merritt, Lakeland, have returned to their home in North Gainesville. They were accompanied by Mrs. Merritt and children, who expect to remain here as guests of Col. and Mrs. Webster for the next few days.

TEACHERS' EXAMINATION.

Number of Applicants for Positions Reported Tuesday Morning.

A number of applicants for positions as teacher in the public schools of Alachua county reported for examination Tuesday morning at 8 o'clock, there being sixteen white and eleven colored applicants.

The examination of white teachers was conducted in the Auditorium of the Gainesville Graded and High School, and was under the supervision of Miss Serena Shannon, a member of the faculty of that school for the past few years. The colored applicants assembled at Union Academy, and the examination there was conducted under the supervision of G. Weeks Miller, a member of the school board.

The first day's work was one of great satisfaction, as the participants manifested a deep interest, appearing to be desirous of excelling in the general average.

The examinations will continue up to and including Friday afternoon.

THIRD QUARTERLY CONFERENCE.

Meeting Held Monday Showed Church Affairs to Be in Fine Condition.

The third quarterly conference of the Methodist Episcopal Church, South, Gainesville district, was held in this city Monday morning. Elder T. J. Nixon presiding.

The meeting was well attended, considering the season, when so many are away, and a great deal of interest was manifested in the work. The various reports presented showed the church and its affairs, financially and spiritually, in a most encouraging condition.

Presiding Elder Nixon finished the work of the meeting before noon, and left on the 1 o'clock train for his home in Ocala.

Stork Visits Zoo.

The stork visited the city zoo this morning at 11 o'clock and left a beautiful baby fawn to the deer "Daisy." The little arrival excited more interest than most real baby arrivals do, and the news quickly spread and hundreds of people called during the day to see the little fellow. He is mighty wobbly on his pins but a day or two will give him plenty of strength and he will be as playful as a kitten. To the best of our knowledge this is the first deer ever born in Ocala since the days when deer and Indians roamed over the present site of the city. Ocala Star, 6th.

Geo. C. Crawford left yesterday for Boston, where he was called on account of the illness of his mother. Friends trust that he will find the condition of the patient greatly improved. Mrs. Crawford and children have been in the East for several days.

Attention is called to the meeting of the Earnest Workers' Society of the First Presbyterian church, which will be held at the home of Mrs. Geo. P. Morris, West McCormick street, at 4 o'clock this afternoon. An interesting meeting is anticipated, and a full attendance is desired.

Prof. W. H. Cassels and family have returned from Forsyth, Ga., and friends are glad to welcome them home again. Mrs. Cassels and children have been for the past few weeks guests of Mrs. Cassels' father, W. T. Lawson, in the Georgia town, but Prof. Cassels only spent three days there.

"Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy, it means that it never fails to cure diarrhoea, dysentery, or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by all druggists.

E. Z. Jones, formerly of Alachua but now a prominent real estate dealer and promoter of Lakeland, was in the city for a brief business trip Monday night and Tuesday. Mr. Jones expressed himself as being well pleased with the rapid development of this section of the State, especially Lakeland and Alachua county.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first unusual looseness of the bowels. It is equally valuable for children and adults. It always cures. Sold by all druggists.

NEW LINCOLN PENNIES

We have just received a shipment from the Treasury Department, and will be pleased to furnish same to any of our friends and customers—not more than 5 cents worth to any one person. Come at once before the supply is exhausted.

THE GAINESVILLE NATIONAL BANK

P. S.—We will charge no premium at all: five pennies for a "jitney" while they last.

OFF TO THE MINES.

John Hoover Stole a Hog and Must Suffer the Consequences.

John Hoover's fondness for pork got him into trouble a week or so recently, with the result that he will be compelled to spend the next ninety days under the strenuous surveillance of a prison guard at Holder, and will not be permitted the freedom a law-abiding man enjoys at night.

John was convicted in Justice Bexley's court at High Springs upon the charge of stealing a hog, and was required to pay a fine of \$10 and costs, in default of which to spend three months on the "gang." Being somewhat financially embarrassed, he decided to accept the prison sentence.

The hog weighed approximately sixty pounds, and at the rate of \$10 and costs, aggregating not less than \$15, that proved rather expensive pork. But failing to pay the fine and costs, John must stand ninety days at hard labor, which will mean not less than \$90 in wage-earning, which brings pork to a price higher than poor folks can really stand.

But John is said to have gotten the pork, and now he must suffer the consequences.

The prisoner was taken to Holder by Deputy Bruton Tuesday.

MASONIC INSURANCE.

The Masonic Mutual Life Association of Washington, D. C., was organized in 1866, and the association belongs exclusively to its members.

The object of this association is to furnish to Masons good insurance at cheaper rates than can be obtained elsewhere.

In this laudable undertaking the officers and directors invite your investigation and hearty co-operation.

Old line plan, five different contracts, 15 to 20 per cent under the regular commercial companies or an annual saving of \$6 to \$8 per thousand.

This is a systematic way of creating a fund out of which will be paid to the widows and orphans of our deceased brethren a certain sum of money. It relieves our local lodges of call for charity.

Address,

N. C. PETTIT, Special Deputy,
Waldo, Florida.

Superintendent Riddle Was Here.

General Superintendent Riddle of the Atlantic Coast Line, who makes his headquarters in Jacksonville, was in the city for a short time Tuesday.

Superintendent Riddle was in his private car, No. 397, and was en route to points south on official business. He is well pleased with the business being transacted by the company in Gainesville, which he declares is one of the best stations on the system in Florida.
